- PEPFAR Overview
- Component review of the APS
- Questions

The U.S. President's Emergency Plan for AIDS Relief in South Africa

APS Pre-bid Workshop
USAID APS # 674-07-001
October 19, 2006

One PEPFAR Many USG Agencies in South Africa

Ambassador's Leadership for Agencies

- Department of State
- Centers for Disease Control and Prevention
- Department of Defense
- Department of Health and Human Services
- Peace Corps
- National Institute of Health
- United States Agency for International Development

Interagency Cooperation: Task Force and Secretariat

Seven Principles of the South Africa PEPFAR Program

1. Partner with South African Government
2. Support the South African Comprehensive Plan
3. Partner with many organizations
4. Build on demonstrated success
5. Develop local capacity
6. Plan for sustainability
7. Deliver carefully measured results

Coordination with Provinces

- PEPFAR projects are required to align activities with Provincial Plans
- PEPFAR projects are required to submit progress reports to Provincial DOH
- PEPFAR Provincial meetings will be held for coordination purposes. All partners working in the province are required to attend.

PEPFAR Goals: 2-7-10

- Treat **2 million** HIV-infected people
 - **55% of funding**
 - **South Africa Goal: 500,000 people on treatment**
- Prevent **7 million** new infections
 - **20% of funding (33% AB)**
 - **South Africa Goal: Prevent 1.8 million infections**
- Care for **10 million** HIV-infected and affected individuals (including orphans and vulnerable children)
 - **25% of funding (15% for palliative care)**
 - **South Africa Goal: Care for 2.5 million South Africans**

Service Delivery Program Areas

Treatment

- ARV Drugs
- ARV Services
- Laboratory Infrastructure

Care

- Basic Health Care and Support
- TB/HIV
- Orphans and Vulnerable Children
- Counseling and Testing

Prevention
